Judge Kelleher put us in touch. He is buying Fairfield. Wants to talk about a regional surface water supply facility. Saw our name in the minutes for the power company meetings. Realized that Judge Kelleher was on our board, and she lives next door. Wants to show us what he is doing for the development and see if TRA might envision a role. He knows that cities and districts in the region near the lake are on groundwater and that there may be a need for surface water.

We'll have to leave early enough to get down there. They bought and converted the old post office to an office building. They are across from the old Arco tower.
